## Areas of application

Short hood CA-1 consist of chemically resistant visor and an integrated air distribution system. The adjustable headband ensures perfect fitting (the head circumference and height are adjustable in three levels). The size of the hood can be adjusted at two points - on the neck and scruff. The wide panoramatic visor enables good orientation and has a special anti-fog coating.

Short hood CA-1 provides sufficient protection of the breathing paths and protect the foreface against splashing of dangerous fluids.

Short hood CA-1 finds application in dusty enviroments without the necessity to protect neck and shoulders and enviroments with low chemical resistance requirements.

## Limitations

- Please, read carefully relevant instruction for use and follow your national safety regulations for PPE.
